DETAILED ACTION

Acknowledgment is made of the amendment received on 8/02/04. Claims 1-40 are currently pending.

Allowable Subject Matter

1. Claims 1-40 are allowable over the prior art.
2. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or fairly suggest either alone or in combination thereof, a method for verifying the authenticity of a mag-stripe card and verifying the identity of the card user presenting the card at a transaction site, the mag-stripe card having a card surface with visually readable indicia indicative of an authorized user of the card and an electronically readable digital data storage magnetic stripe permanently affixed to the card, the method comprising the steps of: deriving a third reference data element representative of a scanned image of the visually readable indicia. Furthermore, no motivation is found to combine any of the references of record to arrive at the claimed invention. Also, the prior art of record, particularly the Goldman reference lacks the teaching of a second reference data element representative of a biometric aspect of the card holder.
